About This Game

In a world where humans are used as power supplies, only one man has the will to change it all!

Iro Hero is a **sci-fi adventure** with beautiful **pixel art** graphics inspired by many old-school classics. Staged across **9 action-packed levels**, Iro Hero features a unique and fresh **four-color polarity system**, with interactive elements, puzzles, color zones, weapon upgrades and special skills to unlock.

The action takes place in 2306, a century after the Nyagu taught mankind how to obtain electricity from their inner energy. Enterprises started to exploit humans in farms to produce energy. What had started as a gift became a curse, reducing people to nothing more than simple power supplies... Only when his mother dies in one of these farms, Iro realizes he has the power to change the order of things.
