they should add the gun that is visible in this skin, i mean they just made a model and only used it here. why? but overall a cool skin. Fun story, adorable characters and tons of heartwarming moments. Definitely worth a read if you enjoy romantic visual novels with a school setting.. Really like driving this loco, and I'm not into steam trains particularly. The steam effects look great, the whistles are very nice, and sounds generally are very good, much better than usual. For a real challenge (for novices like me!) the advanced mode without any HUD's is a must. In short, my fave loco so far. Can't stop driving it up and down Weardale & Teesdale!. can't get the game to load past main screen, system meets all requirements but only the options, and credits buttons light up? must be a glitch in the game.

. Wow, this is such a fun game! I seem to understand what the game developer is trying to do! The more you want to win fast, the more likely you will fail! I must be very careful to control the movement or jump of the characters, or it will be easy to fail, but every time I win, I feel a sense of achievement! Every time I fail, I have a strong feeling to conquer it!

Nice game!

. After buying this route, I can't believe the effort these devs put into this. The horns and bells (besides the locomotive's) felt so fresh, and the crossing bells were amazing too! The cars even had good detail put into them! It was a shame you couldn't get the logos, but everything was amazing! I'd recommend it to everyone! I also compared this to real life because I went on a round trip to the end, and everything looks exact to the real thing! Even the burlington caboose I saw irl at the Aurora station is there, and the Dupage Children's Museum is actually there in Naperville! This is amazing!

Update as of August 17:

A modder on RWA (Railworks America) has released a logo mod, for others to enjoy it to its fullest.. It's like a very simplified Sims. A life sim with one character, maybe a career sim even. And it can actually be kind of a challenge due to reasonable difficulty (and difficulty choices). Very entertaining :-)

Perfect for in-between play of something, still you can think in the game. System requirements are very easy to reach, too. So have fun with it :) cute little puzzle game, i wan't sure how long I would play this game, but it looked interesting. I thought when I watched the videos that the game might be too easy, how wrong i was. I could play it fine and got through the first couple of levels with no problem. Things quickly ramped up by the time I was a level 5, I was doing everything I could to finish the levels the first time. After a few tries, I was able to get a hang of pattern, and I finished level 6. Still working on finishing, but I'm having a good time trying.. it would be go to play the game after bying it

Thank god this dlc allows me to pursue my lifelong dream of being a full-time fursuiter. Waste of money. Not needed.. i lik alexander the grape. oh my god soooooo good. surprisingly fun. remember to save.. Loved this game. When you first play through the story is a bit confusing, but that's what makes trying to get all the endings and the achievements worth it. Each reveals more of the story and gives you a better understanding of all the crazy going on. :D. I found myself asking myself if I should recommend this game or not but after all this is a cute little hidden object game! If you are searching for a relaxing easy way to spend max 3 hours of your time, this game is for you. The artwork is well done in detail and I like that there is a variation of different places.

What cause myself to almost not recommend it was the lack of challenges. The puzzles were very very easy, the story was simple, and some characters' voices were (I think) made by a computer? I don't think there were real persons behind them.

I bought this game for a very reduced price, so I would only recommend it if you buy it on sale.

*. It's DLC for Zup! 3 and it doesn't cost you a red cent! Enjoy 11 additional levels your copy of Zup! 3. But there isn't much to say as you'll only be enjoying this DLC for about 0.2 hours before you finish it.*

*6\10 Not bad, but nothing to write home about.... Great DLC. Im having a lot of fun with it. Enjoy the variety of the Challenges. Better and brighter than their first effort but still not much to go on here...*
